

**Ullapool Medical Practice**  
**Covid Vaccine Clinic**  
**Thursday 29<sup>th</sup> April 2021**

We will be holding a large vaccination clinic on Thursday 29<sup>th</sup> April. We hope to vaccinate between 300-350 patients that day, for those requiring a 2<sup>nd</sup> dose. We will call you to book you an appointment in the same way as we did for your 1<sup>st</sup> dose.

**Please note there will only be parking for disabled and blue badge holders, there will be a drop off and pick up point as well but we are encouraging patients to park elsewhere or walk.**

**In order to facilitate this, the Practice will be closed on this date to all routine enquiries and appointments; in person and by phone.**

**If you have an emergency please call 999 as you normally would. Please make use of NHS24 on 111 where possible.**

**Please also note that any repeat prescription requests may take longer than usual for us to process.**

A few points to note:

We only have the Oxford Astra Zeneca vaccine

- For your safety and ours you will be asked the Covid screening questions before entry to the building
- We will provide you with a FRSM (fluid resistant surgical mask) before entry to the building, you can either replace your own face covering/mask with the mask we give you or pop it on over the top
- If you are not able to wear a FRSM face mask for this purpose please call the Health Centre to make us aware as alternative arrangements will need to be made.
- When you attend for your vaccine please wear a loose-fitting top to give easy access to your upper arm
- If driving you will need to remain for 15mins following your vaccine, we have a socially distant and monitored space for this.

Thank you all again for your patience and understanding.
